PERCONA

Few words about Percona Monitoring and Management (PMM)

100% Free, Open Source database troubleshooting and performance optimization platform for MySQL and MongoDB

Based on Industry Leading Technology

Roll your own in and out of the Cloud

© 2019 Percona.

PERCONA
Monitoring and Management

PERCONA

PMM2 is now GA

What's new in PMM2

Environment Look versus single Server Look

Support of multiple database instances per server

Labels to better define environment

A lot more details in Query Analytics

Major Architecture Cleanup

Base Component Upgrade

PERCONA

Warning: Rough Corners

PMM2 Offers many features beyond what PMM1 offered but it still lacks some of PMM1 features and usability polish
